

Asia's leading technical conference

## 23-24th March 2020 Bangkok, Thailand

A leading conference on the technical aspects  
of the management of poultry in Asia

We utilise leading technical people from the nutrition,  
health and breeding sectors to bring you up to date  
with the latest developments in our industry

- Find out how to control campylobacter and Clostridium perfringens
- Pathobiome or microbiome?
- Help me by taking a closer look at the fibre in my diet
- How can you further optimise my egg production?
